Reinigung von Rohrleitungen

Beschreibung der Reinigungsrichtung

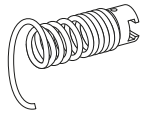

QR-Code auf Reinigungsstücken

An den Geberit Silent-Pro Reinigungsstücken verweist der QR-Code auf die Instandhaltungsanleitung der Geberit Rohrleitungssysteme.

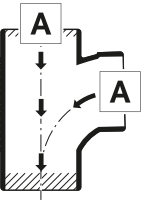

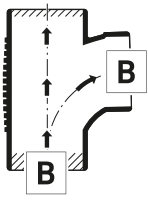

Beschreibung der Reinigungswerkzeuge

Rohrleitungswerkzeuge	Abbildung	Funktion
Blattbohrer		Zum Entfernen von Verstopfungen und Ablagerungen
Doppel-Keulenbohrer		Zum Entfernen leichter Verstopfungen
Gelenk-Keulenbohrer		Zum Entfernen leichter Verstopfungen
Kreuzblattbohrer		Zum Entfernen von Verstopfungen in kleinen Rohrleitungen
Kugelpopfbohrer		Zum Entfernen von Verstopfungen in kleinen Rohrleitungen
Hartmetallbohrkopf		Zum Entfernen von Verstopfungen durch starke Inkrustierung
Kugelpopfzähler		Zum Entfernen von Verstopfungen durch starke Inkrustierung
Igelfraser		Zum Entfernen von Verstopfungen durch starke Inkrustierung

Rohrleitungswerkzeuge	Abbildung	Funktion
Kettenschleuder mit Hartmetall-Bohrkopf		Zum Entfernen von Verstopfungen durch starke Inkrustierung
Rückholbohrer		Zur Bergung von Gegenständen

Cleaning pipelines

Description of the cleaning direction

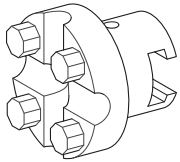

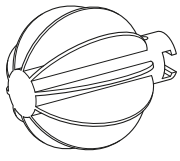

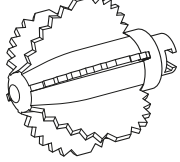

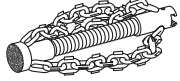

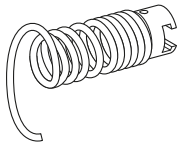

QR code on cleaning pieces

On the Geberit cleaning pieces, the QR code refers to the maintenance manual of Geberit pipelines.

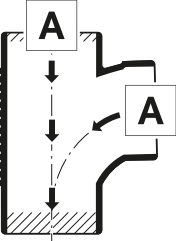

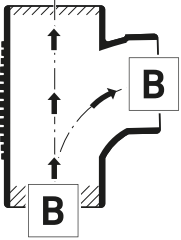

Description of the cleaning tools

Pipeline tools	Figure	Function
Blade drill		For removing blockages and deposits
Double mace drill		For removing light blockages
Articulated mace drill		For removing light blockages
Cross-blade drill		For removing blockages in small pipes
Ball-end drill		For removing blockages in small pipes

Pipeline tools	Figure	Function
Carbide drill head		For removing blockages due to heavy incrustation
Ball-end cutter		For removing blockages due to heavy incrustation
Sprocket cutter		For removing blockages due to heavy incrustation
Chain spinning head with carbide drill head		For removing blockages due to heavy incrustation
Retrieval drill		For the recovery of objects

Pulizia di condotte

Descrizione della direzione di pulizia

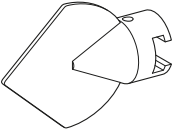

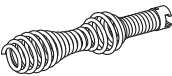

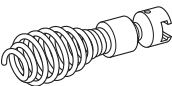

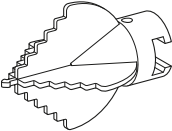

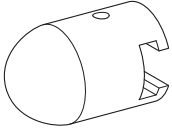

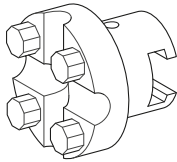

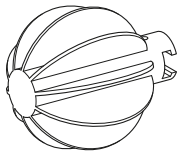

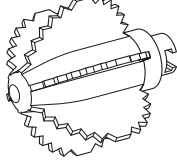

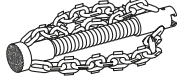

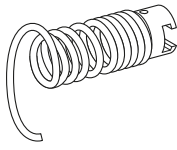

Codice QR sulle braghe d'ispezione

Sulle braghe d'ispezione Geberit, il codice QR rimanda alle istruzioni per la manutenzione delle condotte Geberit.

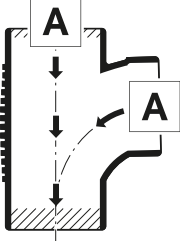

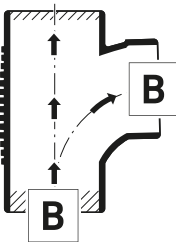

Descrizione degli strumenti per la pulizia

Attrezzi per condotte	Figura	Funzione
Trivella a lancia con lame dentate		Per rimuovere ostruzioni e depositi
Trivella a bulbo doppio		Per rimuovere leggere ostruzioni
Trivella a bulbo articolata		Per rimuovere leggere ostruzioni
Trivella a lancia con lame incrociate		Per rimuovere le ostruzioni nelle condotte di piccole dimensioni
Trivella con testa a sfera		Per rimuovere le ostruzioni nelle condotte di piccole dimensioni

Attrezzi per condotte	Figura	Funzione
Testa per alesare in metallo duro		Per rimuovere le ostruzioni dovute a forti incrostazioni
Frese a testa sferica		Per rimuovere le ostruzioni dovute a forti incrostazioni
Fresa elicoidale		Per rimuovere le ostruzioni dovute a forti incrostazioni
Raschiatore a catena liscia con testa per alesare in acciaio duro		Per rimuovere le ostruzioni dovute a forti incrostazioni
Trivella recuperatrice		Per il recupero di oggetti

Reinigen van leidingen

Beschrijving van de reinigingsrichting

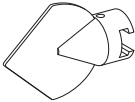

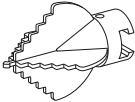

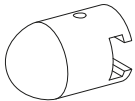

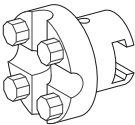

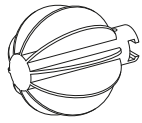

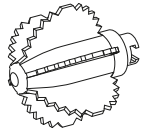

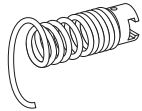

QR-code op reinigingsstukken

Op de Geberit reinigingsstukken verwijst de QR-code naar de onderhoudshandleiding van de Geberit leidingen.

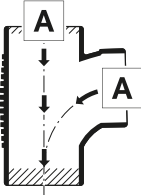

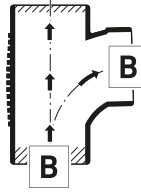

Beschrijving van het reinigingsgereedschap

Leidinggereedschap	Afbeelding	Functie
Bladboor		Voor het verwijderen van verstoppingen en afzettingen
Dubbele knotsboor		Voor het verwijderen lichte verstoppingen
Persbekcharnier-knotsboor		Voor het verwijderen lichte verstoppingen
Kruisbladboor		Voor het verwijderen van verstoppingen in kleine leidingen
Kogelkopboor		Voor het verwijderen van verstoppingen in kleine leidingen
Hardmetalen boorkop		Voor het verwijderen van verstoppingen door zware korstvorming

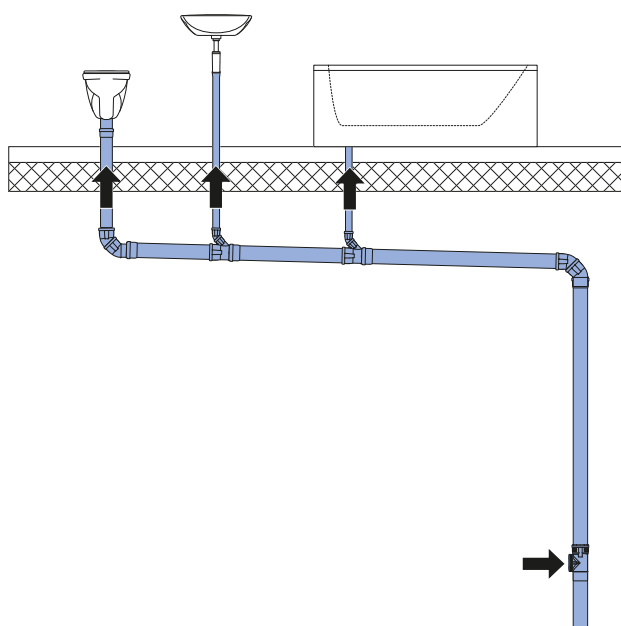

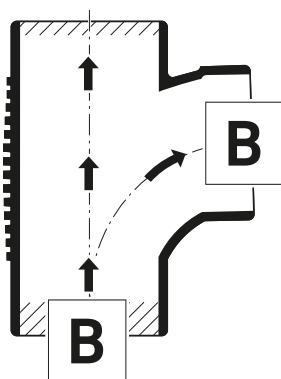

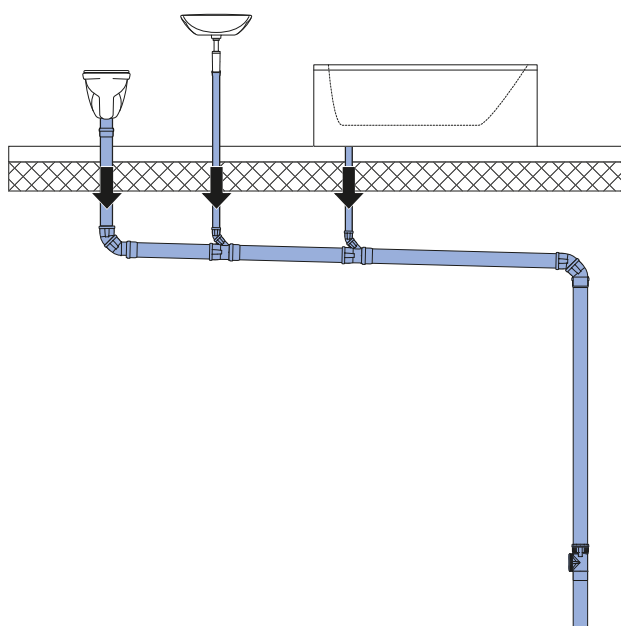

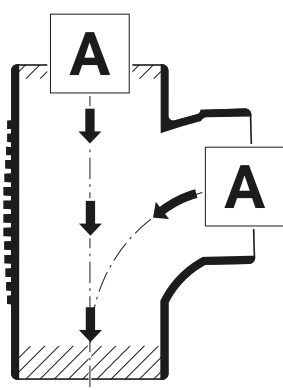

Leidinggereedschap	Afbeelding	Functie
Kogelkopfrees		Voor het verwijderen van verstoppingen door zware korstvorming
Egelfrees		Voor het verwijderen van verstoppingen door zware korstvorming
Kettingslinger met gehard metalen boorkop		Voor het verwijderen van verstoppingen door zware korstvorming
Terughaalboor		Voor het ophalen van voorwerpen

Limpieza de sistemas de tuberías

Descripción de la dirección de limpieza

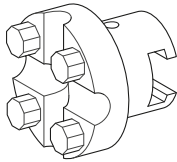

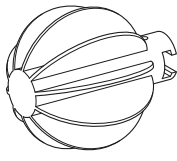

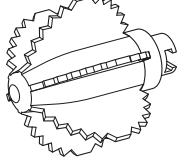

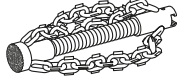

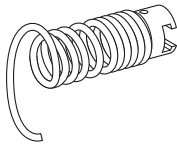

Código QR en los artículos de limpieza

En los artículos de limpieza de Geberit, el código QR remite a las instrucciones de mantenimiento de las tuberías de Geberit.

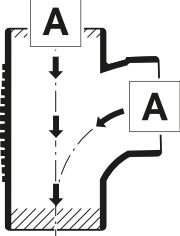

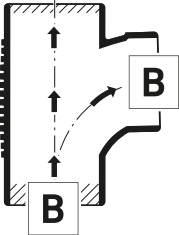

Descripción de las herramientas de limpieza

Herramientas de tuberías	Figura	Función
Broca de hoja		Para retirar obstrucciones y depósitos
Barrena de doble bombilla		Para retirar obstrucciones ligeras
Barrena de bombilla articulada		Para retirar obstrucciones ligeras
Broca de cuchillas cruzadas		Para retirar obstrucciones en tuberías pequeñas
Broca de punta esférica		Para retirar obstrucciones en tuberías pequeñas

Herramientas de tuberías	Figura	Función
Broca de metal duro		Para retirar obstrucciones debidas a fuertes incrustaciones
Fresa de punta esférica		Para retirar obstrucciones debidas a fuertes incrustaciones
Fresa de erizo		Para retirar obstrucciones debidas a fuertes incrustaciones
Golpeador de cadena con broca de metal duro		Para retirar obstrucciones debidas a fuertes incrustaciones
Broca de recuperación		Para la recuperación de objetos

Limpeza de tubagens

Descrição da direção de limpeza

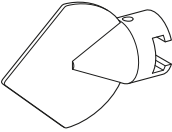

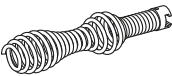

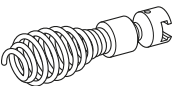

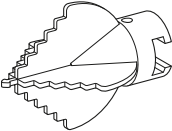

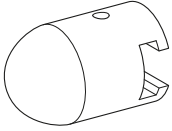

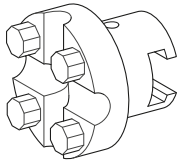

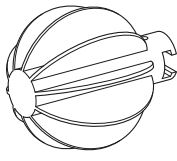

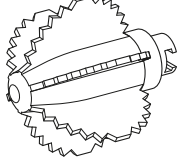

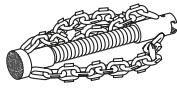

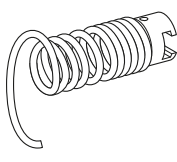

Código QR nas bocas de limpeza

Nas bocas de limpeza Geberit, o código QR remete para as instruções de manutenção das tubagens Geberit.

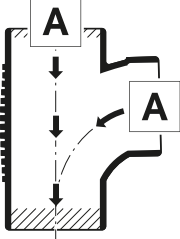

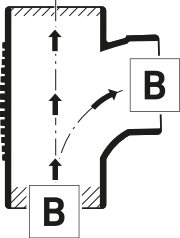

Descrição das ferramentas de limpeza

Ferramentas de tubagens	Figura	Função
Broca de folha		Para remover entupimentos e depósitos
Broca de bulbo dupla		Para remover entupimentos simples
Broca de bulbo articulada		Para remover entupimentos simples
Broca de folha cruzada		Para remover entupimentos em tubagens pequenas
Broca de cabeça esférica		Para remover entupimentos em tubagens pequenas

Ferramentas de tubagens	Figura	Função
Cabeça de perfuração em carboneto		Para remover entupimentos devido a fortes incrustações
Fresas de ponta esférica		Para remover entupimentos devido a fortes incrustações
Broca de rosca		Para remover entupimentos devido a fortes incrustações
Eslinga de corrente com cabeça de perfuração em carboneto		Para remover entupimentos devido a fortes incrustações
Broca de retorno		Para recuperação de objetos

Czyszczenie rurociągów

Opis kierunku czyszczenia

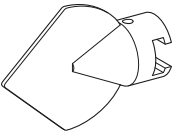

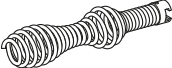

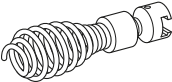

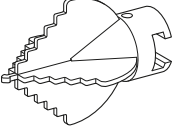

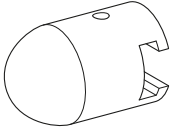

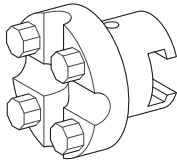

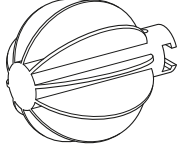

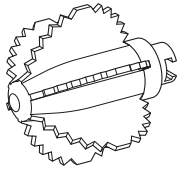

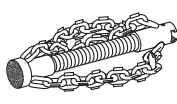

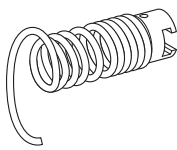

Kod QR na czyszczakach

Kod QR na czyszczakach Geberit odsyła do instrukcji serwisowej rurociągów Geberit.

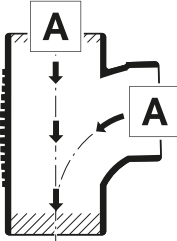

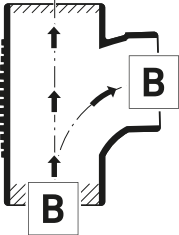

Opis narzędzi do czyszczenia

Narzędzia do rurociągów	Rysunek	Funkcja
Wiertło brzeszczotowe		Do usuwania zatorów i osadów
Podwójne wiertło maczugowe		Do usuwania lekkich zatorów
Przegubowe wiertło maczugowe		Do usuwania lekkich zatorów
Wiertło krzyżowe		Do usuwania zatorów w małych rurociągach
Wiertło kulowe		Do usuwania zatorów w małych rurociągach

Narzędzia do rurociągów	Rysunek	Funkcja
Głowica wiertnicza z metalu hartowanego		Do usuwania zatorów spowodowanych silnym osadzaniem się kamienia
Frez kulowy		Do usuwania zatorów spowodowanych silnym osadzaniem się kamienia
Frez jeżowy		Do usuwania zatorów spowodowanych silnym osadzaniem się kamienia
Wirówka łańcuchowa z głowicą wiertniczą z metalu hartowanego		Do usuwania zatorów spowodowanych silnym osadzaniem się kamienia
Wiertło ze spiralą		Do wyjmowania przedmiotów

Csővezetékek tisztítása

A tisztítási irány leírása

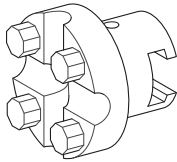

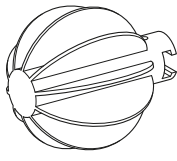

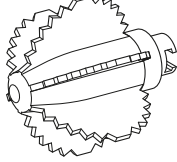

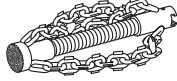

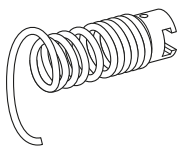

QR-kód a tisztító idomokon

A Geberit tisztító idomokon a QR-kód a Geberit csővezetékek karbantartási útmutatójára utal.

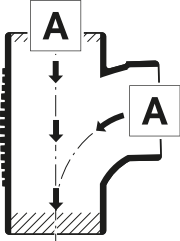

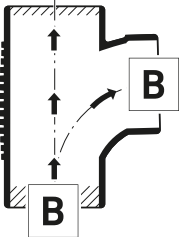

A tisztító szerszámok leírása

Csőszerszámok	Ábra	Funkció
Lapfúró		Eltömődések és lerakódások eltávolítására
Kettős klubfúró		Kisebb eltömődések eltávolítására
Csuklós klubfúró		Kisebb eltömődések eltávolítására
Keresztlapfúró		Eltömődések eltávolítására kisméretű csővezetékben
Gömbfejű fúró		Eltömődések eltávolítására kisméretű csővezetékben

Csőszerszámok	Ábra	Funkció
Keményfém fúrófej		Erős lerakódás okozta eltömődések eltávolítására
Gömbvégű maró		Erős lerakódás okozta eltömődések eltávolítására
Sünmaró		Erős lerakódás okozta eltömődések eltávolítására
Lánckopogtató keményfém fúrófejjel		Erős lerakódás okozta eltömődések eltávolítására
Visszahúzó fúró		Tárgyak helyreállításához

Почистване на тръбопроводи

Описание на посоката на почистване

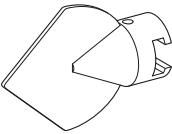

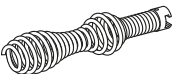

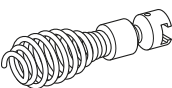

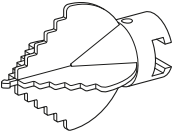

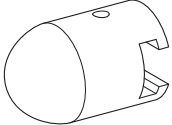

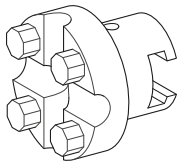

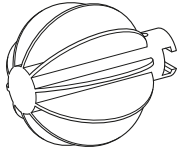

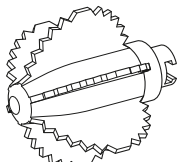

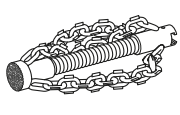

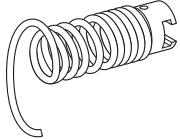

QR код върху частите за почистване

QR кодът на частите за почистване на Geberit препраща към ръководството за поддръжка на тръбопроводите Geberit.

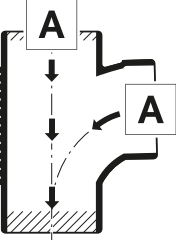

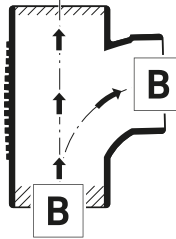

Описание на инструментите за почистване

Инструменти за тръбопроводи	Фигура	Функция
Плоско свредло		За отстраняване на запушвания и отлагания
Двойно свредло със спирала		За отстраняване на леки запушвания
Шарнирно свредло със спирала		За отстраняване на леки запушвания
Кръстато плоско свредло		За отстраняване на запушвания в малки тръбопроводи
Свредло с обла глава		За отстраняване на запушвания в малки тръбопроводи

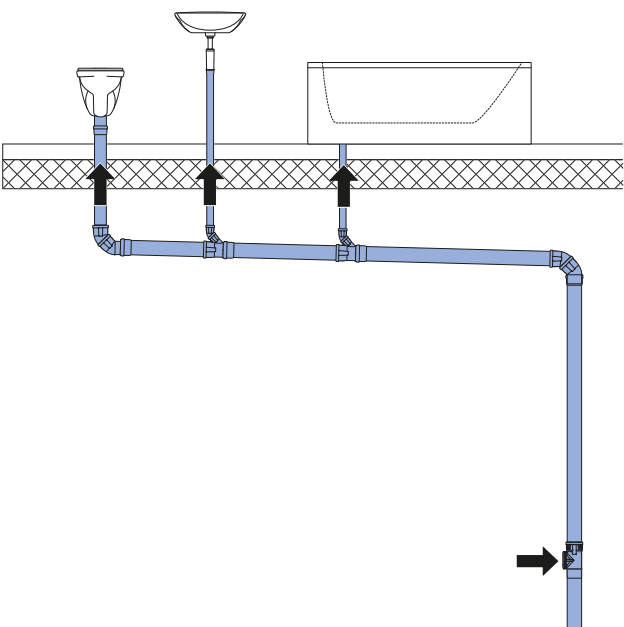

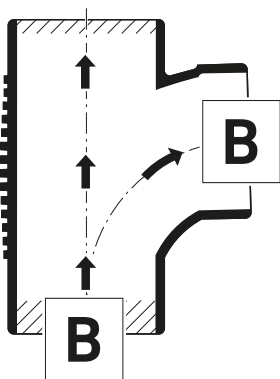

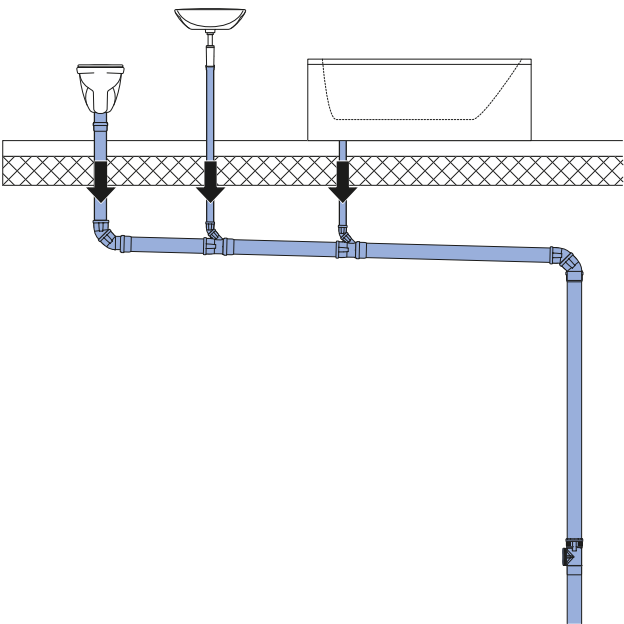

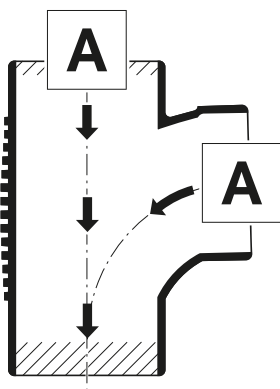

Инструменти за тръбопроводи	Фигура	Функция
Твърдосплавна глава за свредло		За отстраняване на запушвания поради големи отлагания
Фрезер с обла глава		За отстраняване на запушвания поради големи отлагания
Иглен фрезер		За отстраняване на запушвания поради големи отлагания
Верижна центрофуга с твърдосплавна глава за пробиване		За отстраняване на запушвания поради големи отлагания
Свредло за изваждане		За запазване на предмети

Curățare conducte

Descrierea direcției de curățare

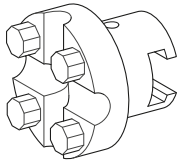

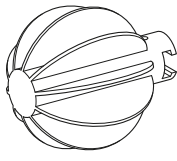

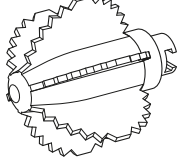

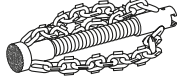

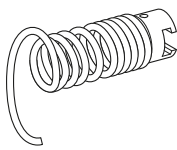

Cod QR pe piesele de curățare

Pe piesele de curățare Geberit, codul QR se referă la instrucțiunile pentru lucrările de întreținere a conductelor Geberit.

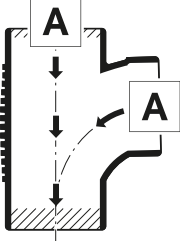

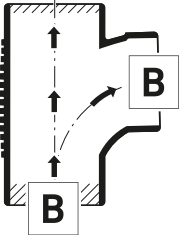

Descrierea sculelor pentru curățare

Scule pentru conducte	Figura	Funcție
Ejector de grăsime		Pentru îndepărtarea blocajelor și a depunerilor
Burghiu dublu pentru suport		Pentru îndepărtarea blocajelor ușoare
Burghiu articulat pentru suport		Pentru îndepărtarea blocajelor ușoare
Burghiu cu lamă transversală		Pentru îndepărtarea blocajelor din conductele mici
Burghiu cu vârf sferic		Pentru îndepărtarea blocajelor din conductele mici

Scule pentru conducte	Figura	Funcție
Vârf de burghiu din carbură		Pentru îndepărtarea blocajelor datorate unor incrustații puternice
Freze cu capăt sferic		Pentru îndepărtarea blocajelor datorate unor incrustații puternice
Freză arici		Pentru îndepărtarea blocajelor datorate unor incrustații puternice
Șlefuitor cu lanț cu vârf de burghiu din carbură		Pentru îndepărtarea blocajelor datorate unor incrustații puternice
Burghiu de extragere		Pentru recuperarea obiectelor

Очистка труб

Описание направления очистки

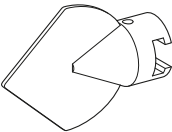

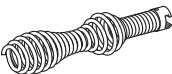

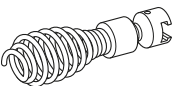

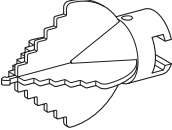

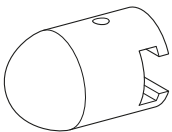

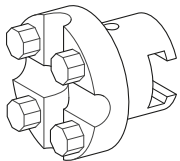

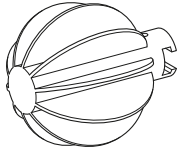

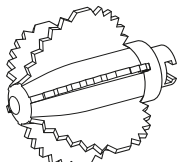

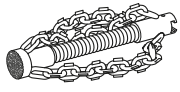

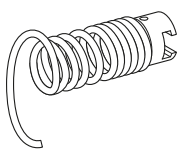

QR-код на ревизиях

По QR-коду на ревизиях Geberit можно перейти к руководству по поддержанию в исправном состоянии для труб Geberit.

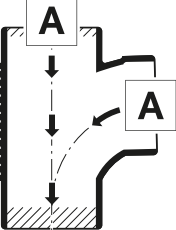

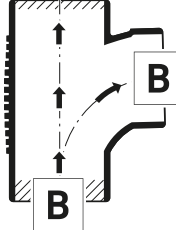

Описание инструментов для очистки

Инструменты для очистки труб	Рисунок	Функция
Лопаточный бур		Для устранения засоров и отложений
Двойной грушевидный бур		Для устранения небольших засоров
Шарнирный грушевидный бур		Для устранения небольших засоров
Крестообразный лопаточный бур		Для устранения засоров в небольших трубах
Шарообразный бур		Для устранения засоров в небольших трубах

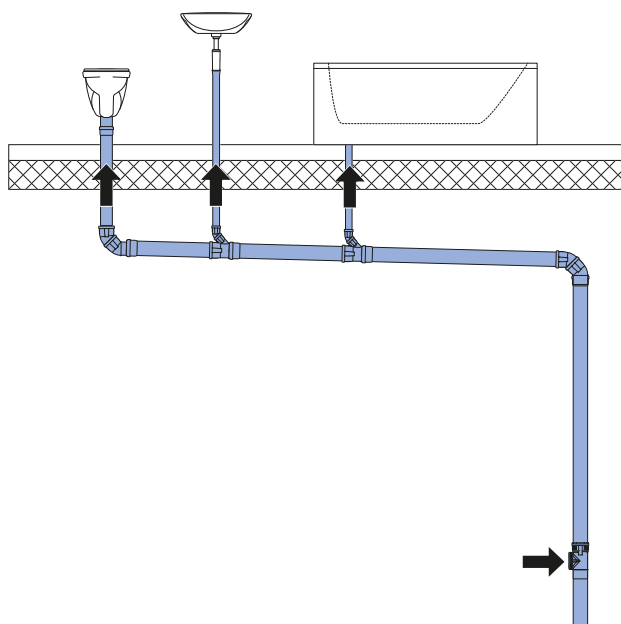

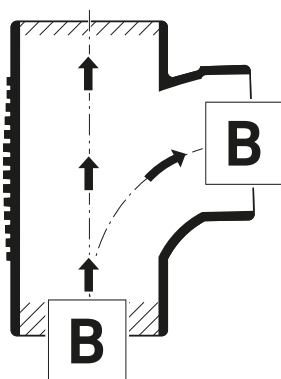

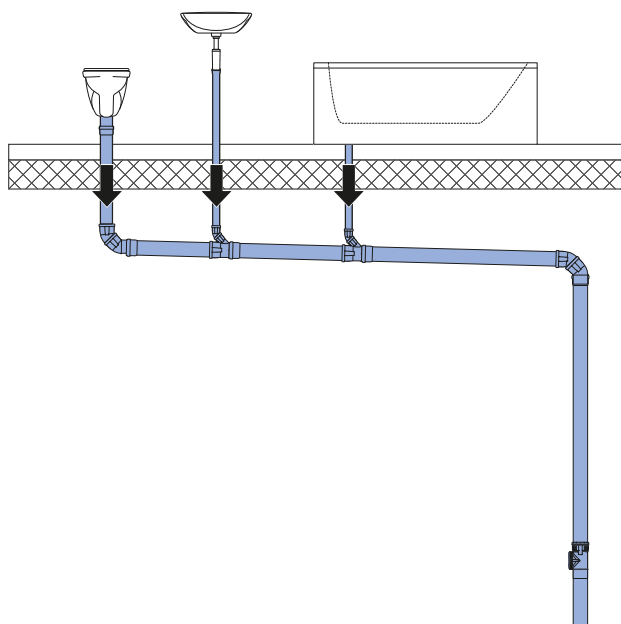

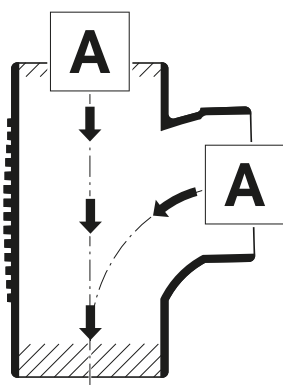

Инструменты для очистки труб	Рисунок	Функция
Твердосплавная буровая головка		Для устранения засоров, образовавшихся в результате значительных отложений
Шарообразная фреза		Для устранения засоров, образовавшихся в результате значительных отложений
Зубчатая фреза		Для устранения засоров, образовавшихся в результате значительных отложений
Цепная молотилка с твердосплавной буровой головкой		Для устранения засоров, образовавшихся в результате значительных отложений
Крюкообразная ловилка		Для извлечения предметов
